

Introducing the
ActivBoard Touch

CREATE INTERACTIVE AND COLLABORATIVE LEARNING ENVIRONMENTS

To promote effective collaborative learning practices, schools and districts need interactive technology and software that:

1. Supports multi-user interaction
2. Offers teaching and learning tools that suit the needs of every lesson
3. Enables collaborative learning across whole-class, individual, small-team and multi-team settings

THE DIGITAL CLASSROOM DISPLAY BUILT FOR LEARNING

The multi-user ActivBoard Touch creates an active learning environment that encourages students to interact with the lesson content and collaborate with each other to share knowledge and problem solve while improving verbal and written communication skills.

THE ActivBoard Touch DIFFERENCE

Intuitive, six-touch display

makes it simple for teachers and students to interact using multi-touch gestures, including swipe, pinch and zoom

Dry-erase surface

creates a flexible instructional tool that can be used for every occasion

Flexible professional development program

options available to help educators unite their curriculum and teaching styles with Promethean's ActivBoard Touch

Premium pen interaction

add the digital pen accessory for a natural writing and navigation experience, including the capability to track student contributions by assigning different ink colors

Multiple options

available in a 78" or 88" display with various mounting system and projector options; add optional ActivSoundBar for powerful, high-quality sound

Magnetic stylus and touch functionality

offer multiple methods of interaction

Award-winning software

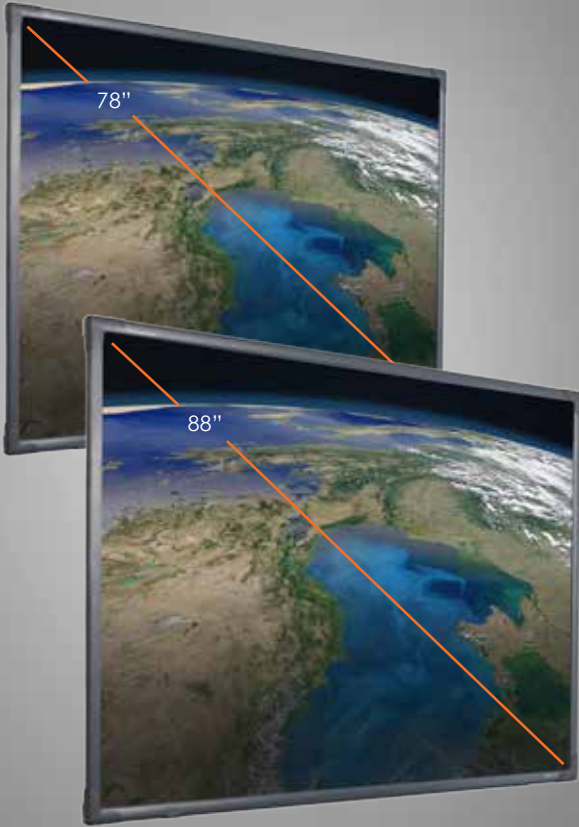

ActivInspire and ClassFlow offer a vast suite of tools and free resources for teachers to create and deliver interactive multimedia lessons and assessments

Comprehensive 5-year standard warranty

with telephone and online support
